## Education

### Abdul Kalam Technology University

Master of Computer Application

Aug. 2021 – July 2023

Kanpur, Uttar Pradesh

### Chhatrapati Shahu Ji Maharaj University

Bachelor of Science

Mar. 2019–June 2021

Kanpur, Uttar Pradesh

## Experience

### PureCode Software | Onsite | <https://purecode.ai/>

Oct 2023 – March 2024

Software Engineer

Hyderabad, telangana

- Translated complex design requirements into interactive user experiences to promote customer engagement, while also building and testing application functionality to ensure a desirable user experience across all platforms.
- Optimized page elements to minimize loading time and meticulously debugged code to ensure seamless usability.
- Collaborated with other developers, designers, and project teams to ensure successful, on-schedule development and delivery of applications.
- Developed an interactive layout using React and tailwind to generate an improved user experience and ensure high-quality design and cross-browser compatibility.
- Enhanced website performance by 50 percent through implementation of efficient React coding practices, alongside optimization of existing codebase, while collaborating with design team to seamlessly integrate UX/UI designs, resulting in a 60 percent increase in user satisfaction.

### Kushel Digi Solution | Onsite

Mar 2023 – Sept 2023

Software Engineer

Noida, Uttar Pradesh

- Developed a responsive website UI using HTML, CSS, React.js, and Tailwind CSS, prioritizing accessibility standards for enhanced usability.
- Collaborated with project managers to ensure timely delivery of projects, resulting in increased organizational efficiency.
- Translated complex design requirements into interactive user experiences using React.js and Tailwind CSS, driving web traffic and promoting customer engagement.

### MeanSol Technologies | Onsite

July 2022 – Dec 2022

Frontend Intern

Jaipur, Rajasthan

- Assisted in the development and maintenance of front-end web applications, resulting in a positive impact on the company's overall performance.
- Provided support to senior front-end developers after becoming proficient in javascript and Reactjs, resulting in a stronger, more efficient tech team.
- Worked with cross-functional teams to develop and execute on-time and on-budget projects and initiatives.
- Developed and executed front-end development strategies, resulting in a 15% increase in website performance.
- Implemented and maintained front-end web applications, resulting in a 10% increase in website traffic and conversion rates.

## Projects

### Food Restaurant | <https://food-resutaunt.vercel.app/>

March 2024

- Designed and Implemented a Visually Appealing UI/UX using HTML, CSS, and JavaScript, ensuring a seamless user experience across various devices and browsers.
- Created a Dynamic Menu System that allows users to browse and filter menu items by category, with accompanying images and descriptions.
- Integrated Google Maps API to provide customers with directions to the restaurant and display its location, and developed a Contact Form that allows customers to send inquiries and feedback to the restaurant, improving customer engagement and support.
- Optimized website performance using best practices in coding, image compression, and caching, resulting in fast page loads and improved search engine rankings.

## Technical Skills

**Languages:** JavaScript, HTML5, CSS, Material UI, Tailwind, Manual Problem Solving, debugging.

**Developer Tools:** VS Code, IntelliJ IDEA

**Technologies/Frameworks:** Linux, GitHub, React

**Soft Skill:** Leadership, Creative Thinking, Public Speaking, Time Management, Collaboration With Team
